Learn a language. Lead for real.

Three weeks in Montréal for teens who want more than a summer camp. Mornings: English or French classes. Afternoons: leadership, public speaking and teamwork workshops. And every week, campers plan and run real FLAP events for the whole camp.

Leadership workshop

Leadership, public speaking and teamwork, every weekday. Workshops are in English: conversational English is enough.

Skills they'll use for life.

On day one, every camper writes three personal goals. On the last day, they check how far they got.

1 Speak in public with confidence

2 Plan and lead a real event

3 Work in an international team

4 Give and take feedback

5 Set goals and track them

6 Debate and persuade

7 Think like an entrepreneur

8 Lead across cultures

An international team

They don't just learn leadership. They do it.

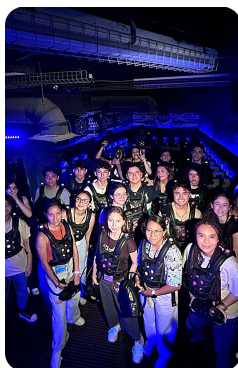

Every week, Leadership campers plan and run real events for the whole camp: the tasks, the timing, the roles and a plan B. A FLAP monitor is always there with them.
